7. COURSE Easterly	COMMENTS: ECHO I was over Miami area at 2306Z but heading NE. Daylight conditions are such that an object of the dimness of a Satellite would not likely be observed. Witness is not regarded as reliable due to previous correspondence. If an object was observed it is likely that the witness misinterpreted some conventional object, such as an aircraft.

Gentlemen,

Please send me Project Blue Book  
questionnaire, please send me two forms,  
will return one with a report of my sightings  
and keep the other. Was not Echo I or II, ~~the~~ first  
oval shape, then round, was metallic, reflected  
sunlight, was solid object. Miami, Florida. Not plane,  
bird, weather balloon, or etc. 1. No tail, trail or exhaust,  
was silent. Sketch, Miami Florida. No. of objects - one.

unaided eye → size of U.F.O. ○

Date: Jan. 25, 65 - Time - 6:15 p.m. - 6:25 p.m.  
Yellowish red in color, was clear sky,  
beautiful sunset in West. Was not jet plane  
as were three but gone way ~~etc~~ before  
object appeared then whilst was viewing  
this strange thing thru binoculars while  
it was motionless for 3-mins in N.E. the  
big air force refueling mother jet came  
back alone between me + the U.F.O. at  
not way to high altitude, same as U.F.O.'s.  
but went on by, this seemed strange  
To me, as I knew neither had any connection  
with the other.

It might should send this in right away.

Sincerely,

M. F. C. U. F. O. [REDACTED]
